

DETAILED CONTENTS

Contents	vi
Foreword	vii
Preface	xiii

Part I: Introduction

Chapter 1 Buyer Behaviour	1
1.1 The Role of Repeat-Buying	1
1.2 Consumer Behaviour	2
1.3 The Data Analysed	6
1.4 The Choice of Analysis-Variables	9
1.5 Some Repeat-Buying Indices	13
1.6 Summary	16
Chapter 2 Regularities of Behaviour	17
2.1 The Fundamental Finding	17
2.2 Regular Patterns	17
2.3 Repeat-Buying Theory	21
2.4 A Practical Application: A Seasonal Trend for Brand M	25
2.5 Summary	28

Part II: Repeat-Buying

Chapter 3 The Repeat-Buying Structure of a Market	31
An Empirical-Example	31
Table 3.1 Penetration and Penetration Growth	32
Table 3.2 The Frequency of Buying per Buyer	35
Table 3.3 Packs per Purchase	38
Table 3.4 Light and Heavy Buyers	39
Table 3.5 The Sales Importance of Light and Heavy Buyers ..	41
Table 3.6 The Incidence of Repeat-Buyers	42
Table 3.7 The Buying-Frequency per Repeat-Buyer	45
Table 3.8 The Buying-Frequency per “New” Buyer	45
Table 3.9 Repeat-Buying in Non-Consecutive Periods	47
Table 3.10 Repeat-Buying by Light and Heavier Buyers	48
Summary and Conclusions	50

Chapter 4 Basic Theory	53
4.1 Three Forms of Repeat-Buying	53
4.2 The Number of Purchases in a Time-Period	54
4.3 The Fit of the Negative Binomial Distribution	57
4.4 The LSD Approximation	58
4.5 An Underlying Model of Stationary Buyer Behaviour	60
4.6 Period-to-Period Repeat-Buying	63
4.7 Three Levels of Theory	64
4.8 Time-Periods of Varying Length	70
4.9 Conditions of Fit	73
4.10 Summary: The Nature of the NBD/LSD Theory	78
 Part III: Practical Applications	
Chapter 5 Some Practical Applications	83
5.1 Theory and Applications	83
5.2 A Comparison of American and British Repeat-Buying Habits	83
5.3 Repeat-Buying of Clothing	88
5.4 Low Repeat-Buying: A new Brand R	97
5.5 A Shortage of Repeat-Buyers or an Excess of Occasional Buyers?	98
5.4 Low Repeat-Buying and High Brand-Switching	100
5.7 Summary	101
 Chapter 6 Further Applications	103
6.1 Non-Stationary Situations and Technical Applications	103
6.2 Evaluating a Consumer Promotion	103
6.3 Expanding Limited Data: A New Product Q in Test Market	111
6.4 Statistical Errors in the Data	117
6.5 Summary	124
 Part IV: Mathematical Theory*	
Chapter 7 The NBD Theory	127
7.1 The Nature of the Theory	127

* The two chapters in Part IV are for the more technical reader.

7.2	The Compound Poisson Model	128
7.3	The Negative Binomial Distribution	130
7.4	The Multivariate NBD	131
7.5	The Theoretical Constant k in Different Length Time-Periods	133
7.6	Repeat-Buying in Two Periods	135
7.7	The Combination of the NBD's	137
7.8	The Variance Discrepancy	139
7.9	Shelving	143
7.10	Summary	146
Chapter 8 The LSD Theory		147
8.1	An Approximation to the NBD	147
8.2	The Number of Non-Buyers	147
8.3	The Logarithmic Series Distribution	151
8.4	The Importance of Heavy Buyers	155
8.5	Varying Lengths of Time-Periods	157
8.6	Repeat-Buying in Two Equal Periods	159
8.7	An Underlying Stochastic Model	163
8.8	Summary	165
<i>Part V: Buying More than One Brand</i>		
Chapter 9 The Multi-Brand Structure of a Market		169
An Empirical Example		169
Table 9.1	Brand-Shares Amongst Light and Heavy Buyers	169
Table 9.2	Total Product Usage	170
Table 9.3	Buying Other Brands	171
Table 9.4	The Incidence of Sole Buyers	173
Table 9.5	The Buying-Frequency of Sole Buyers	174
Table 9.6	The Number of Brands Bought	175
Table 9.7	Brand-Duplication of Purchase in a Year	177
Table 9.8	Brand-Duplication in a Quarter	179
Table 9.9	Brand-Duplication over Time	180
Table 9.10	The Buying-Frequency of Duplicated Buyers	181
Summary and Conclusions		183
Chapter 10 Multi-Brand Buying Theory		185
10.1	Three Questions about Multi-Brand Buying	185
10.2	Brand Rates of Buying	186
10.3	Pack-Size Rates of Buying	188

10.4	Product Rates of Buying	189
10.5	Brand-Duplication of Purchase	191
10.6	The Duplicated Buyers' Frequency of Purchase	197
10.7	Sole Buyers	198
10.8	The Length of the Analysis-Period	201
10.9	Summary	205

Part VI: R & D

Chapter 11	The Growth of Theory	209
11.1	Research into Buyer Behaviour	209
11.2	Models Without Facts	210
11.3	Facts Without Models	215
11.4	From Facts to Theory, and Back Again	217
11.5	Reasons Why	222
11.6	Discrepancies	230
11.7	Gaps and Future Developments	235
11.8	Summary	239

Chapter 12	Developing Prototype Applications	243
12.1	Problem-Solving and Basic Knowledge	243
12.2	Management Applications	244
12.3	The Brand and the Consumer	250
12.4	The Way Sales Increase	251
12.5	Summary	253

Chapter 13	The Dirichlet Model	255
13.1	A Comprehensive Model	255
13.2	The Dirichlet Model	256
13.3	Fitting the Model	260
13.4	The Fit of the Model	264
13.5	Uses of the Model	268
13.6	The Background	272

Appendix A:	Calculations for an Individual Brand	277
Appendix B:	Some Useful Tables	317
Appendix C:	Calculations for Multi-Brand Buying	337
